Rev Samuel May, dear sir,

I am directed by the board of the Upton An... Anti Slavery Society, to request you to give them information with respect to the intentions of the Mass Abolitionists in relation to petitioning the present Congress, and on what subjects. If it is the intention to petition, they wish to know if you have petitions with which you can furnish them; if you have they wish you to send them, if not they wish to be informed where they can be obtained. It does appear to me that some part of this communication will make the board of the Upton Anti slavery Society appear more ignorant of Anti slavery movements than I believe them to be. But I have done as I was commanded, and I am confident that the least act of kindness which you can do for the poor Slave will be done with the utmost pleasure. Dear sir, please to answer soon, as it is probable that nothing will done till we hear from you.

I am, dear sir, with my whole heart, yours in the cause of Slave. Hosea Trumbull

Note I send you the names which I have obtained to the constitution of the Worcester South division Anti slavery society. They are as follows.
